

CSWC Operational Period Summary

0600 June 26 2014 to 1800 June 26 2014

Cal OES Headquarters

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

FIRE WEATHER

NORTHERN CALIFORNIA:

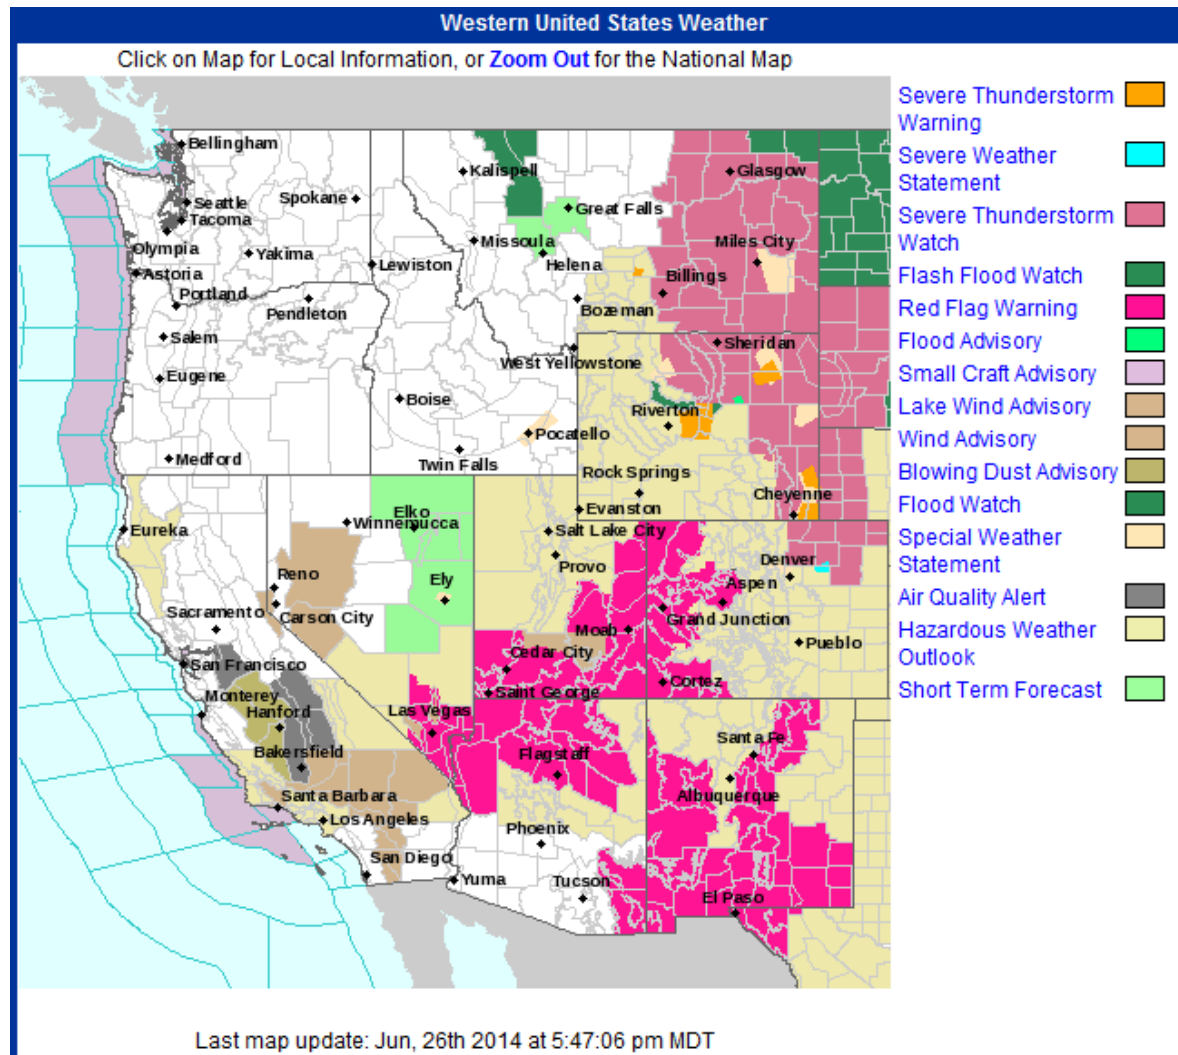

A Pacific low pressure system will produce more showers across the northern end of northern California again today. Isolated thunderstorms are possible in far Northeast California and Northwest Nevada this afternoon. Showers or storms will be capable of producing 0.25-0.50 inches of rainfall. The remainder of the North Operations region will be partly cloudy and mild again today. Friday will be a bit drier and warmer in most areas, but another weak system may produce scattered light rain showers in far northwest California. High pressure will begin building over the region this weekend. By Sunday afternoon temperatures will be 5-7 degrees above normal and Relative Humidity will drop into the 8-16% range in inland areas. These conditions will be enhanced in the Sacramento Valley and nearby foothills by north-northeast winds gusting to 25 mph. This trend, including the north-northeast downslope winds in and around the valley, will continue through Tuesday. A cooling trend will begin Wednesday as a dry low pressure system approaches from the north.

FIRE WEATHER

SOUTHERN CALIFORNIA:

The tail end of a dry trough is moving through the central part of the state this morning. This trough will produce strong onshore flow today which will lead to gusty west winds across much of the deserts today. The strongest winds today will occur from the Kern County Mountains eastward into the Antelope Valley and the central Mojave where winds of 20-30 mph with gusts to 45 mph will be possible. Similar wind speeds will be possible in the Banning Pass this afternoon. Temperatures today and Friday will be relatively cool with highs in the 70s along the coast to the 80s in the valleys, including the San Joaquin Valley. The flow will turn more northwesterly late tonight and Friday which may allow for north winds of 10-20 mph to develop in Santa Barbara County and the I-5 Corridor overnight and again Friday night. This weekend, a strong ridge of high pressure will build over the region, leading to light winds, but much warmer and drier conditions. By Sunday and Monday, high temperatures will be over 100 in the valleys and lower foothills with the San Joaquin Valley and interior valleys of Central California likely seeing highs over 105. Minimum Relative Humidity may approach the single digits for 6-8 hours each afternoon from 2,000-6,000 early next week. The hot weather will stick around through at least next Wednesday.

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

Cal EOC Incident – 2014 Drought

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

****As our state's rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly. This winter's below average rain and snowfall worsens conditions in this third straight dry year.***

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

Situational Summary (Cont.)

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The final manual snowpack survey of the season was conducted on Thursday (May 1) and showed California snowpack at 18% of normal.
- DWR has announced that water essential for health and safety will be delivered through the state water project. The current State Water Project Allocation is 5%.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2014-LAW-2798**, El Dorado County is planning an in-county SAR exercise on 07/15/14 for their volunteers and have requested the assistance of the California National Guard (CNG) aviation assets to support the exercise. Elements of the exercise will include an orientation to the various CNG air assets (H72, H60 and CH47), hoist training, patient packaging for air evacuation and ground team insertion and extraction training.
- **2014-LAW-2483**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the IRL Racing Event at Sonoma Raceway August 22-24, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2481**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NHRA Racing Event at Sonoma Raceway July 25-27, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
